Ash Telecom can supply refurbished equipment; parts and service to **BABT** and **PXML** standards. All refurbished equipment supplied comes with a one-year warranty. Our stock lists our constantly updated and keenly priced to keep you the customer within budget. Our sales consultants can advise on the wide range of equipment suited to your individual requirements. Potential savings of up to 50% off manufacture prices on second user call centres, and telephone systems. We also specialise in relocation of voice and data equipment. If you are looking to sell old equipment we believe that we can offer generous prices for dismantling, removal of equipment, cabling, minimising disruption and inconvenience. Below is some of the vast range of second user products Ash Telecom can supply:
