

## NORTEL RECEIVES TWO UNIFIED COMMUNICATIONS® MAGAZINE'S 2008 UNIFIED COMMUNICATIONS EXCELLENCE AWARDS

RECOGNIZED FOR OUTSTANDING INNOVATION

[Unified Communications magazine](#) \* has named [Nortel Converged Office](#) as a recipient of its 2008 Unified Communications Excellence Award as well as [Nortel Multimedia Communication Server 5100](#).

Converged Office integrates Nortel business-grade telephony with Microsoft desktop collaboration and communication systems in an open-SIP, standards-based environment. This robust, enterprise-class architecture provides a winning solution that goes beyond the complexity of competitive middleware offerings.

Multimedia Communication Server 5100 is a leading unified communications solution which seamlessly integrates IP Telephony, multimedia conferencing, instant messaging (IM), presence and other collaboration tools for employees — anywhere, anytime, increasing user mobility, enhancing productivity, improving the effectiveness of communications and reducing communication costs.

"Nortel has proven they are committed to quality and excellence while addressing real needs in the marketplace. Unified Communications is pleased to grant a 2008 Unified Communications Excellence Award to their Converged Office for Microsoft Office Communications Server 2007 and their Multimedia Communication Server 5100," said Rich Tehrani, TMC President and Editor-in-Chief of Unified Communications magazine. "We're proud to honor their hard work and accomplishments and look forward to more innovative solutions from Nortel in the future."

A full list of Unified Communications Excellence Award winners are published in the November/December, 2008 issue of [Unified Communications magazine](#) \*
