

Mitel 5360 IP Phone

The Mitel 5360 IP Phone is an exciting next generation desktop device that provides a color touch display to graphically deliver rich applications to general business or across multiple vertical market sectors. Demonstrating Mitel's continued focus on the user, the 5360 IP Phone delivers easy-to-use, one-touch access to many phone features and applications. A full-feature enterprise-class telephone, the 5360 IP Phone provides a large color backlit graphics display with 48 programmable self-labeling keys, six intuitive call state sensitive softkeys, superior sound quality, and a built-in HTML Toolkit for desktop applications development. Equipped with a Gadget Sidebar (patent pending), the seven-inch display enables one-touch access to embedded or internet-based content and applications. Embedded gigabit enables the 5360 IP Phone to operate in a 10 / 100 / 1000 Mb Ethernet (GigE) LAN environment and allows unconstrained Gigabit Ethernet bandwidth from the network to desktops. The 5360 IP Phone is ideal for any enterprise executive or manager, teleworker, and contact center supervisor.

Features of the 5360 IP Phone include:

- 7 inch backlit, high-resolution (800 x 480) color, touch-screen display with brightness controls
- Touch-screen access to features and applications
- Colorized display content and applications to improve visibility and usability
- Dual embedded Gigabit Ethernet ports (LAN & PC)
- 48 Programmable, multi-function, self-labeling keys, provided in three pages of 16 keys each (for one-touch access to speed calls, line appearances, features, applications)
- Six context-sensitive soft keys for intuitive access to features and functionality
- Gadget Sidebar (patent pending) provides one-touch access to embedded applications such as Call History, Visual Voice Mail, People, Call Forwarding, Conference application and Brightness options, HTML applications and the main Phone Application
- Embedded Applications: People, Visual Voicemail, Call History, Call Forwarding, Conference Unit Controller, Settings, Cordless Controller
- Wideband Audio ready – hardware ships with a wideband handset (7kHz) standard
- Peripherals and modules support: Mitel Cordless Handset / Headset, Mitel Line Interface Module, Mitel 5310 IP Conference Unit, Mitel Wireless LAN Stand
- 10 fixed function hard keys: Hold, Menu, Message, Speaker, Mute, Transfer / Conference, Redial, Cancel, Volume / Ringing / Contrast Up and Down
- HTML Desktop Toolkit support for applications development
- Multiple language support built-in (English, French, Spanish, German, Italian, Dutch, Portuguese, and simplified Chinese)
- Handsfree speakerphone operation (full duplex)

- Supports IEEE 802.1p/q for Voice Quality of Service
- Compression support: G.711, G.729a
- Intel® VxWorks operating system allowing a flexible development environment for future feature enhancements
- Multiple powering options: Accepts standards-based (IEEE 802.3af power compliant) power over the LAN via spare pair to signal pair, or supports 48 VDC Ethernet / AC power wall adapter
- Designed for power conservation: reduces power consumption for overall energy savings
- Supported on the Mitel Communications Director (MCD) Release 4.0 SP1

General Availability is October 2009.
